I am a second-year undergraduate at Cornell University studying computer science and philosophy. My research involves designing and implementing tools for program verification, both skills I believe necessarily borrow from software engineering and analytical philosophy.

## EDUCATION

### Cornell University

2021 - 2025

Bachelor of Arts in Computer Science & Philosophy

λ Activities: Competitive Programming Club (ICPC), Cornell Cinema Volunteer

## EXPERIENCE

### REUSE, Carnegie Mellon University

05/2022 - Present

Research Intern

λ Advised by Dr. Jonathan Aldrich & Dr. Joshua Sunshine on Gradual Verification.

λ Developed a property based testing tool for evaluating soundness of Gradual  $C_0$ .

### CAPRA, Cornell University

10/2021 - Present

Undergraduate Research Assistant

λ Advised by Dr. Adrian Sampson in the Calyx compiler infrastructure team.

λ Implemented the Graphicionado graph analytics accelerator in Calyx.

λ Worked on a symbolic execution tool to verify Calyx code.

### CSSI, Google

07/2021 - 08/2021

Software Engineering Student

λ Learned programming fundamentals in JavaScript directly from Google engineers.

λ Got an inside look at Google employee tools used for web development.

λ Developed a peer-to-peer instant messaging system with a web interface.
